Kimb Jones

4 weeks ago the UK was locked down because of the global COVID-19 pandemic. It has been a challenging few weeks for a small agency like ours but we've managed to adapt quickly to the change and remain productive in the 'new normal'.

Always Remote

This has been the least noticeable change for our team. We have been fully remote from day 1 with most of our team choosing to work from home.

Harvest

HARVEST

Various Video Call Options

Whereby

Meet

zoom

Other Options

- **Dropbox & Paper:** Used to use this but moved on to keep everything in Drive
 - **Sirportly / HelpScout:** Some form of 'shared inbox' and client support desk system to track issues
 - **Loom:** Instantly share video and screen share with clients and team members
 - **HubSpot CRM:** Track sales and leads and current customers
 - **1Password:** The best team password tool around
 - **Simplenote:** More of a personal note taking app but very simple, basic and easy to use and access across different systems
